

## SATs folders

Dear Parents/Carers,

Firstly, I'd like to thank each of you that attended both the Maths Workshops and this week's SATs information workshop. Your support of us as a school, and your interest in your child's education at Muswell Hill, is an invaluable asset to us, and one for which I am very grateful.

As the children begin their (well earned) half term week, you'll have noticed they have brought home their SATs folders, where they have filed the practise papers we have been doing in class. This will give you some idea as to how they are faring, and more importantly, where they still have gaps in their confidence or understanding.

We're working rigourously to help fill those gaps but any additional help you can offer at home would be warmly encouraged, as those one-to-one discussions the children have with parents, older siblings, other relations etc...around any areas they are less confident in, can make a massive difference.

With that in mind, I thought I'd give a reminder of some of the points that were discussed in both workshops:

1. Go through some of the papers with your child. Look at the areas where they made a mistake and focus on this one area, rather than download whole papers, and try and tackle everything.
2. Use the resource on the school website to help address their concerns or misconceptions.

Download any of the areas that you've discussed with the kids and help them work through the examples, using the videos if necessary to help clarify.

As a guideline, we're asking the children to have a target number in mind for the arithmetic test and for each reasoning test, and these are as follows:

- Arithmetic – aiming for at least 30 out of 40 marks
- Reasoning – aiming for at least 15 out of 35

Headteacher: James Wiltshire

[www.muswellhillprimary.co.uk](http://www.muswellhillprimary.co.uk)  
Entrance: 26-28 Dukes Ave, N10

If each child achieved exactly those marks then they would have achieved the combined 60 out of 110 marks to have passed last year's SATs. So you can see that your help in moving your child towards and above those thresholds can really have a significant impact.

Thanks again for all your support.
