The Muswell hill team has arrived at Heartlands and are raring to go. Amethyst class say that "they're defiantly going to win" Mia is feeling confident but a bit nervous.

muswell hill will do their very best!

The girls are now getting ready to do their events, while the boys are posing for the camera. Everyone is very excited to get started.

The girls have just done speed bounce and sound quite pleased with what they accomplished.

Now the girls are queuing up to do the hop skip and jump and they look incredibly nervous! How will they do?

And they've done it they did incredibly well Muswell hill are in for a good chance!

And now the boys are doing speed bounce and boy are they good. It looks like Muswell hill have an amazing chance to get through!

Now their doing running and at the moment it looks great for Muswell hill!

Mia and Martha are running now and and they're awesomely speedy!

Now the boys are about to do it and they look very excited.and Joey and Ureil won their running race! "Happy days happy days!"

The boys just came 3rd in heat 2.

We've done extremely well but is it enough? That's the question there all asking will we bring home a gold trophy or bring nothing back we'll see in the next few events.

Third place! And out of twelve as well. We were brilliant but unfortunately it wasn't enough to get through. What a shame we were so close, but only the first and second could get through. Well done Muswell hill! Better luck next time.

Maddy Pond
