Maddie
Aisha
Izzy
Olivia
Kenza

Before the start of the game each team were told the rules. They were told there are two rest stations so when you're not playing you can rest at these stations. The main objective was that there are six different activities that had to be rotated around different stations. For example in one of the activities if you hit a circle you get points 1, 2, 3, and so on. There are eight teams from different schools and each group are splint into girls and boys.

The first game they played was called Finders Keepers, each team get a practice round each then it's the real thing!

Watching the first round was nerve wracking, each person ran as fast as they could to bring the ball back ready for the next person!

Both boys and girls did brilliant in the first round.

The second game was called Dominoes!

The first to start the game was Ollie and Lucas, they both hit the target and earned their team a point. The guys continued to try their hardest until the next round.

The game after that was called Zone Pool and this time Muswell Hill primary earn their points very easily!

Next was the tunnel game, at the end of the court there was a split hoopla hoop and each team member had to hit it with a ball using their golf stick. George and Sebbie won the game! This by far seemed to be the hardest game played yet.

The Mat game was the 5th game. The aim of this game is to get a bull's eye on the mat and hit the highest point. This was another hard game but they did their best. Aisha and Olivia were very good at chipping the ball.

The final Game was called Down the Middle. The last game and the last chance to possibly win. They were all hoping Muswell Hill can do it! There was some tough competition but Muswell Hill gave it their best shot.

The results were (Drum roll please)

1st place
Rhodes Avenue

2nd place
Muswell Hill Primary

Well played to everyone that took part
