

Speak Like A Native is coming to Muswell Hill Primary School

Your children will discover a love of languages in our fun after-school Spanish club. This will help them develop educationally now, prepare them for secondary school and equip them with the skills they'll need to live, study and work wherever their talents take them when they are older.

Designed by winners of the British Council prize for language learning, our stress-free *Guided Language Participation* method reflects the natural way we all acquire our mother tongue. Tell your children that there won't be worksheets or homework and we'll even recommend they have a bit more screen time at home (if they watch their favourite programmes in Spanish!).

Each 60-minute session is filled with games, tasks and activities, which the children want to take part in. The focus is on participation *in* the target language rather than learning how the language works. The children use their problem-solving skills to work out what they're being told to do, which leads to growing self-confidence as they soon learn how to get by in foreign language. It was recently described in [The Times](#) as a "psychological shift" in the way children learn.

The Spanish club is for Years 1 – 6 and is ideal for those children with little or no background in a second language or those already benefitting from the school's commitment to Mandarin and French. All levels are welcome!

Language learning is a commitment that involves time and effort... but the benefits are immense and last a lifetime. We guarantee that your children will *not* be fluent after a term but by giving them the chance to build the foundations, the rewards will come.

Speak Like A Native is growing in London – already in top state and private schools including UCS, St Anthony’s School for Girls, Gospel Oak and Frith Manor.

We are excited to be opening our first language club at Muswell Hill Primary School and look forward to doing our bit to help prepare and equip your children for secondary school and the future.
