

14.3.18

Dear Parents and Carers,

Re. School Improvement Priorities 2018

As a Senior Leadership Team we believe it is important that parents/carers and children as well as our staff understand what our priorities for school improvement are.

We attach business cards which contain an overview of our school improvement plan for your information. I hope this helps so that you know what we are working on this year.

In 2018 we will:

- ✓ **Enrich** our approach to teaching mathematics mastery so that children across the school demonstrate a deep, long-term and secure understanding of what they have learnt so that they have the ability to reason and solve a variety of more complex problems.
- ✓ **Enhance** writing across the school and the curriculum so that children can confidently write with a greater depth of knowledge and understanding. We are looking forward to this enhancement beginning in the Early Years particularly for our boys, as well as our girls.
- ✓ **Enable** pupils entitled to Pupil Premium funding, children who speak English as an Additional Language and children with Special Educational Needs to make accelerated progress in reading, writing and mathematics across the school to enable great standards of attainment for all.
- ✓ **Encourage** pupils to make fantastic progress in all subjects due to high quality differentiation that allows them to access the broad and balanced curriculum that we offer.
- ✓ **Exercise** our skill as teachers and educators by making our assessment of non-core subjects even more effective to develop the assessment element of the teaching and learning cycle further.
- ✓ **Excite** our staff through the delivery of high quality training that allows all staff to support teachers in marking and providing immediate feedback on pupils' work, and encourages succession for senior leader and middle leader posts.

Kind Regards,

Senior Leadership Team

Muswell Hill Primary School
