18 June 2019

Dear Carers/Parents,

Following a meeting with Haringey Council representatives and associated stakeholders yesterday (Monday) afternoon, the Grassed Area and the Play Area will be re-opening this week as test results have confirmed there is no evidence of asbestos in those sections of the KS2 area.

The areas we have already identified as having asbestos-containing materials (ACMs) – the Woodland Area and the Garden/Pond Area – remain closed, along with the other outdoor areas which were being tested for ACMs. Tests confirmed ACMs were present in two isolated areas of the Woodland Bank and one in the Garden/Pond Area.

We are awaiting the test results of the other outdoor areas in the form of a full report. We expect to have that report back by the end of next week and we will be able to provide more detail after that, along with an idea of next steps forward.

I would like to reiterate once again that the affected areas are closed off and we are confident it is safe for the children to be at school. I also want to repeat that we will always act with their best interests at heart.

We will update you as soon as we have more information to share. Thank you once again for your continued patience, support and understanding in this matter.

Best wishes,

Mandi Howells
