

Muswell Hill Primary School

GDPR Data Protection Policy

Approved by:	Governing Body	Date: July 2018
Last reviewed on:	July 2020	
Next review due by:	November 2021	

Muswell Hill Primary School is a Rights Respecting School, based upon the UNICEF Convention of the Rights of the Child.

We believe that all children should grow up aware of these rights and respect these rights for themselves and for others. Being a Rights Respecting School underpins policies throughout the school. As policies are reviewed within the cycle they are adapted to demonstrate this. Reviews started in the academic year of 2019/20. The school received the Bronze Award in July 2020 and is currently working towards the Silver Award.

1. Introduction and scope

Our school aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the [General Data Protection Regulation \(GDPR\)](#) and the expected provisions of the Data Protection Act 2018 (DPA 2018) as set out in the [Data Protection Bill](#).

This policy applies to all personal data, regardless of whether it is in paper or electronic format.

This policy is intended to ensure that personal data is dealt with properly and securely and in accordance with the law. It will apply to information regardless of the way it is used, recorded and stored and whether it is held in paper files or electronically.

The Data Protection Act is the law that protects personal privacy and applies to any organisation which processes or has access to people's personal data. The Act helps ensure that the management of data held electronically and / or and in paper-based systems is processed correctly.

This policy sets out the framework for Muswell Hill Primary School's compliance with Data Protection law. Muswell Hill Primary School has a privacy notice setting out how it uses pupil and parent data at the following website address: www.muswellhillprimary.co.uk

Muswell Hill Primary School has a legal responsibility to comply with the Data Protection Act 2018, and with the requirements of the General Data Protection Regulation from 25 May 2018. The school, as a public authority, is named as the Data Controller under the Act. Data Controllers are organisations which hold and process personal data and have a duty to establish workplace practices and policies that are in line with the Act.

Muswell Hill Primary School is registered as a Data Controller with the Information Commissioner's Office (ICO), which regulates the Data Protection Act 2018, to confirm that information about individuals is being collected, processed and held. Overall responsibility for Data Protection rests with the Governing Body; responsibility for securing compliance with the Data Protection Act and reporting this to the Governing Body is delegated to the head teacher as Senior Information Risk Owner.

Muswell Hill Primary School is obligated to have a **Data Protection Officer** in place under the law. The name of the **Data Protection Officer is Mr Craig Stilwell at Judicium Consulting Ltd and he can be contacted at dataservices@judicium.com**.

This policy does not form part of the contract of employment for staff, but it is a condition of employment that employees will abide by the rules and policies made by the school. Any failures to follow the policy may result in disciplinary proceedings.

The school processes a large amount of personal data such as staff records, names and addresses of those requesting prospectuses, examination marks, references, fee collection etc. In addition, the school may be required by law to collect and use certain types of information to comply with statutory obligations of the local authority, government agencies or other bodies.

2. Legislation and guidance

This policy meets the requirements of the GDPR and the expected provisions of the DPA 2018. It is based on guidance published by the Information Commissioner's Office (ICO) on the [GDPR](#) and the ICO's [code of practice for subject access requests](#). It also reflects the ICO's [code of practice](#) for the use of surveillance cameras and personal information.

In addition, this policy complies with regulation 5 of the [Education \(Pupil Information\) \(England\) Regulations 2005](#), which gives parents the right of access to their child's educational record.

3. Definitions

Term	Definition
Personal data	<p>Any information relating to an identified, or identifiable, individual.</p> <p>This may include the individual's:</p> <ul style="list-style-type: none">• Name (including initials)• Identification number• Location data• Online identifier, such as a username <p>It may also include factors specific to the individual's physical, physiological, genetic, mental, economic, cultural or social identity.</p>
Special categories of personal data	<p>Personal data which is more sensitive and so needs more protection, including information about an individual's:</p> <ul style="list-style-type: none">• Racial or ethnic origin• Political opinions• Religious or philosophical beliefs• Trade union membership• Genetics• Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes• Health – physical or mental• Sex life or sexual orientation
Processing	<p>Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or</p>

	destroying. Processing can be automated or manual.
Data subject	The identified or identifiable individual whose personal data is held or processed.
Data controller	A person or organisation that determines the purposes and the means of processing of personal data.
Data processor	A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller.
Personal data breach	A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data.
Data Protection Impact Assessment (DPIA)	DPIAs are a tool used to identify risks in data processing activities with a view to reducing them.

4. The data controller

Our school processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a data controller.

The school is registered as a data controller with the ICO and will renew this registration annually or as otherwise legally required.

5. Roles and responsibilities

This policy applies to **all staff** employed by our school, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

5.1 Governing Body

The governing body has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

5.2 Data protection officer

The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

They will provide an annual report of their activities directly to the governing body and, where relevant, report to the governing body their advice and recommendations on school data protection issues.

Full details of the DPO's responsibilities are set out in their job description.

5.3 Headteacher

The headteacher acts as the representative of the data controller on a day-to-day basis.

5.4 All staff

Staff are responsible for:

- Collecting, storing and processing any personal data in accordance with this policy
- Informing the school of any changes to their personal data, such as a change of address
- Contacting the DPO in the following circumstances:
 - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
 - If they have any concerns that this policy is not being followed
 - If they are unsure whether or not they have a lawful basis to use personal data in a particular way
 - If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the European Economic Area
 - If there has been a data breach
 - Whenever they are engaging in a new activity that may affect the privacy rights of individuals
 - If they need help with any contracts or sharing personal data with third parties.

6. Data protection principles

The GDPR is based on data protection principles that our school must comply with.

The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner
- Collected for specified, explicit and legitimate purposes
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date
- Kept for no longer than is necessary for the purposes for which it is processed
- Processed in a way that ensures it is appropriately secure.

This policy sets out how the school aims to comply with these principles.

7. Collecting personal data

7.1 Lawfulness, fairness and transparency

We will only process personal data where we have one of six 'lawful bases' (legal reasons) to do so under data protection law:

- The data needs to be processed so that the school can **fulfil a contract** with the individual, or the individual has asked the school to take specific steps before entering into a contract
- The data needs to be processed so that the school can **comply with a legal obligation**
- The data needs to be processed to ensure the **vital interests** of the individual e.g. to protect someone's life

- The data needs to be processed so that the school, as a public authority, can perform a task **in the public interest**, and carry out its official functions
- The data needs to be processed for the **legitimate interests** of the school or a third party (provided the individual's rights and freedoms are not overridden)
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**.

For special categories of personal data, we will also meet one of the special category conditions for processing which are set out in the GDPR and Data Protection Act 2018.

If we offer online services to pupils, such as classroom apps, and we intend to rely on consent as a basis for processing, we will get parental consent (except for online counselling and preventive services).

Whenever we first collect personal data directly from individuals, we will provide them with the relevant information required by data protection law.

7.2 Limitation, minimisation and accuracy

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.

Staff must only process personal data where it is necessary in order to do their jobs.

When staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the school's Schedule of Record Retention and Disposal Policy, which is found on [Information and Records Management Society's toolkit for schools](#).

8. Sharing personal data

We will not normally share personal data with anyone else, but may do so where:

- There is an issue with a pupil or parent/carer that puts the safety of our staff at risk
- We need to liaise with other agencies – we will seek consent as necessary before doing this
- Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies. When doing this, we will:
 - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
 - Establish a data sharing agreement with the supplier or contractor, either in the contract or as a standalone agreement, to ensure the fair and lawful processing of any personal data we share
 - Only share data that the supplier or contractor needs to carry out their service, and information necessary to keep them safe while working with us.

We will also share personal data with law enforcement and government bodies where we are legally required to do so, including for:

- The prevention or detection of crime and/or fraud
- The apprehension or prosecution of offenders
- The assessment or collection of tax owed to HMRC
- In connection with legal proceedings
- Where the disclosure is required to satisfy our safeguarding obligations
- Research and statistical purposes, as long as personal data is sufficiently anonymised or consent has been provided.

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

9. Subject access requests and other rights of individuals

9.1 Subject access requests

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual.

Subject access requests should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the information requested.

If staff receive a subject access request they must immediately inform the headteacher in the first instance.

9.2 Children and subject access requests

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Children below the age of 12 are generally not regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

9.3 Responding to subject access requests

9.3.1 When responding to requests, we:

- May ask the individual to provide two forms of identification
- May contact the individual via phone to confirm the request was made
- Will respond without delay and within one month of receipt of the request
- Will provide the information free of charge

- May tell the individual we will comply within three months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within one month, and explain why the extension is necessary.

We will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Is contained in adoption or parental order records
- Is given to a court in proceedings concerning the child.

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee which takes into account administrative costs.

A request will be deemed to be unfounded or excessive if it is repetitive, or asks for further copies of the same information.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO.

9.3.2 To request access to all the personal data that the school holds about a Data Subject, a Subject Access form can be completed and submitted to us. It is available by contacting a member of the office staff team on Tel: 020 8444 8488. A valid request can be made without submitting the form but further clarification may be required.

To protect personal data when processing a request, the school may also require copies of two forms of identification. These should be:

- one piece of photographic identification, such as a valid passport, valid driving licence or a valid EU national identity card.
- one piece of identification confirming your address and dated within the last three months such as a utility bill, council tax statement or bank statement.

Applicants may book an appointment with the School Office, which will accept the application and validate the identification. Whilst Muswell Hill Primary School may be able to confirm your identification in person, should you require any personal data be posted to you, the school will always require proof of address to ensure that any data that the school releases is sent securely and to the correct address. There may also be occasions where someone is legally allowed to act on behalf of someone else (for example power of attorney). The school will require proof of this prior to providing access to information.

Please note the school can charge a 'reasonable fee' when a request is manifestly unfounded or excessive, particularly if it is repetitive. The school may also charge a reasonable fee to comply with requests for further copies of the same information. The fee will be based on the administrative cost of providing the information.

9.3.3 Following receipt of a written request and identification being completed, Muswell Hill Primary School will prepare the information requested within 30 calendar days. However, if Muswell Hill Primary School does not have the information required to perform a search, it will contact the applicant and ask for more details (The 30-day period of response will begin from the day we receive sufficient information to enable a search).

Requests for access to personal data will normally be carried out by the staff within the school. Where the input of the Data Protection Officer has been necessary, to clarify whether documents should be disclosed, this will be specified in the response.

The unlawful obtaining or disclosure of personal data without consent of the Data Controller is an offence under the law.

9.4 Other data protection rights of the individual

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

- Withdraw their consent to processing at any time
- Ask us to rectify, erase or restrict processing of their personal data, or object to the processing of it (in certain circumstances)
- Prevent use of their personal data for direct marketing
- Challenge processing which has been justified on the basis of public interest
- Request a copy of agreements under which their personal data is transferred outside of the European Economic Area
- Object to decisions based solely on automated decision making or profiling (decisions taken with no human involvement, that might negatively affect them)
- Prevent processing that is likely to cause damage or distress
- Be notified of a data breach in certain circumstances
- Make a complaint to the ICO
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances).

10. Parental requests to see the educational record

A separate right exists under the Education (Pupil Information) (England) Regulations 2005 (SI 2005/1437) for parents, or those with parental responsibility. Parents have a legal right to free access to their child's educational record (which includes most information about a pupil) within 15 school days of receipt of the parent's written request for a copy of that record. Requests should be made to the Headteacher via the School Office.

11. Responsibilities for Information Security

As per the Data Protection Act and as a corporate body, the school is the Data Controller of the personal data it processes and Governors are therefore ultimately responsible for ensuring the school's compliance, however designated officers will deal with day to day matters.

Muswell Hill Primary School will ensure that all personal data is accessible only to those who have a valid reason for using it and not disclosed to any unauthorised third parties. Any member of staff, parent or other individual who considers that this policy has not been followed in respect of personal data should raise the matter with Headteacher and/or the Data Protection Officer, whose contact details are above.

Muswell Hill Primary School has the following three designated officers and they are:

Mandi Howells - Headteacher Senior Information Risk Owner
Annette Atkinson - Officer Manager
Doy Owino-Townsend – Inclusion Manager

A member of the governing body will also act as an advisor to the school.

12. CCTV

We use CCTV in various locations around the school site to ensure it remains safe. We will adhere to the ICO's [code of practice](#) for the use of CCTV.

We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to the Site Services Officer.

Closed Circuit Television

- 7.1 Muswell Hill Primary School uses Closed Circuit Television (CCTV) and complies with the Information Commissioner's CCTV Code of Practice.
- 7.2 As a data controller Muswell Hill Primary School must inform people it is using CCTV. This is achieved by signs around the premises, which are clearly visible and readable. Prior to the installation of any new CCTV, a Privacy Impact Assessment will be conducted in line with section 6 of this policy.
- 7.3 The Governing Body has delegated responsibility to the Headteacher and SSO for the CCTV images, deciding what is recorded, how images should be used and for establishing clear procedures on how to use the system. Regular checks will be made to ensure that the procedures are followed. The school will follow the guidance set out in *Appendix 2 and 3 of In the picture: A data protection code of practice for surveillance cameras and personal information*
- 7.4 Muswell Hill Primary School will only keep the images for as long as necessary to meet the purpose of recording them. CCTV images may be used for security, safeguarding, behaviour management, and for the management of practice against the school's policies. The school reserves the right to use images taken on CCTV where they are relevant to a potential legal claim, including in relation to employee discipline. Recordings taken as part of this system are retained for 30 to 60 days and then deleted from the system.
- 7.5 Any disclosure of images will be in line with the provisions of the law including any requests for personal data. Any such requests will be processed in line with this policy. However, in addition to those requirements we will likely require details, which will assist us to establish your identity as the person in the pictures, and to help find the images on the system assuming they are still retained.
- 7.6 Muswell Hill Primary School may need to disclose CCTV images for legal reasons (for example to the police for crime detection or at the behest of a court order). Once we have given the images to another organisation, then that organisation must also adhere to the Data Protection Act 2018 in their handling of the images. We will not disclose images of identifiable people to the media or post them on the internet. Images released to the media to help identify any person are usually disclosed by the police. Please refer to CCTV policy.

13. Photographs and videos

As part of our school activities, we may take photographs and record images of individuals within our school.

We will obtain written consent from parents/carers for photographs and videos to be taken of their child for communication, marketing and promotional materials. We will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil.

Uses may include:

- Within school on notice boards and in school magazines, brochures, newsletters, etc.
- Outside of school by external agencies such as the school photographer, newspapers, campaigns
- Online on our school website or social media pages.

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further. Photographs or videos of ex-pupils will also be deleted when they leave the school.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

See our Safeguarding and Child Protection Policy, E-Safety Policy (including photo and video permission & staff social media policy), for more information on our use of photographs and videos.

14. Data protection by design and default

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6)
- Completing privacy impact assessments where the school's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- Integrating data protection into internal documents including this policy, any related policies and privacy notices
- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- Maintaining records of our processing activities, including:
 - For the benefit of data subjects, making available the name and contact details of our school and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
 - For all personal data that we hold, maintaining an internal record of the type of data, data subject, how and why we are using the data, any third-party recipients, how and why we are storing the data, retention periods and how we are keeping the data secure.

15. Data security and storage of records

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

In particular:

- Paper-based records and portable, unencrypted electronic devices, such as laptops and hard drives that contain personal data are kept under lock and key when not in use

- Papers containing confidential personal data must not be left on office and classroom desks, on staffroom tables, pinned to notice/display boards, or left anywhere else where there is general access
- Where personal information needs to be taken off site, staff must consult the 'Protocols for taking documentation off site' and must sign it in and out from the school office if necessary
- Passwords that are at least 8 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff and pupils are reminded to change their passwords at regular intervals
- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures as for school-owned equipment (see our E-safety policy including staff acceptable use agreement and staff social media policy)
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 8).

16. Disposal of records

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the school's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

17. Personal data breaches

The school will make all reasonable endeavours to ensure that there are no personal data breaches.

In the unlikely event of a suspected data breach, we will follow the procedure set out in Appendix 1.

When appropriate, we will report the data breach to the ICO within 72 hours. Such breaches in a school context may include, but are not limited to:

- A non-anonymised dataset being published on the school website which shows the exam results of pupils eligible for the pupil premium
- Safeguarding information being made available to an unauthorised person
- The theft of a school laptop containing non-encrypted personal data about pupils.

18. Training

All staff and governors are provided with data protection training as part of their induction process.

Data protection will also form part of continuing professional development, where changes to legislation, guidance or the school's processes make it necessary.

19. Monitoring arrangements

The DPO is responsible for monitoring and reviewing this policy.

This policy will be reviewed and updated if necessary when the Data Protection Bill receives royal assent and becomes law (as the Data Protection Act 2018) – if any changes are made to the bill that affect our school's practice. Otherwise, or from then on, this policy will be reviewed **every 2 years** and shared with the full governing body.

20. Links with other policies

This data protection policy is linked to our:

- Freedom of information publication scheme
- E-safety policy including use of photos and videos, acceptable use and staff social media policy
- Safeguarding and child protection policy
- Data Breach Policy
- Social Media Policy

Appendix 1: Personal data breach procedure

This procedure is based on [guidance on personal data breaches](#) produced by the ICO.

- On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the Headteacher who will liaise with the school's DPO.
- The school's DPO is Judicium Consulting Services and they can be contacted on 020 33269174
- Other designated officers within the school are:
Annette Atkinson (Office Manager) and Doy Owino-Townsend (Inclusion Manager)
- The DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
 - Lost
 - Stolen
 - Destroyed
 - Altered
 - Disclosed or made available where it should not have been
 - Made available to unauthorised people.
- The DPO will alert the headteacher and the chair of governors.
- The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary. (Actions relevant to specific data types are set out at the end of this procedure.)
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen.
- The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
 - Loss of control over their data
 - Discrimination
 - Identify theft or fraud
 - Financial loss
 - Unauthorised reversal of pseudonymisation (for example, key-coding)
 - Damage to reputation
 - Loss of confidentiality
 - Any other significant economic or social disadvantage to the individual(s) concerned.

If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.

- The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored on the school's computer system.
- Where the ICO must be notified, the DPO will do this via the ['report a breach' page of the ICO website](#) within 72 hours. As required, the DPO will set out:
 - A description of the nature of the personal data breach including, where possible:
 - The categories and approximate number of individuals concerned

- The categories and approximate number of personal data records concerned.
 - The name and contact details of the DPO.
 - A description of the likely consequences of the personal data breach.
 - A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned.
- If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible.
- The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned.
- The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies.
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
 - Facts and cause
 - Effects
 - Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals).

Records of all breaches will be stored and recorded within the schools system.

- The DPO and headteacher will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible.

Actions to minimise the impact of data breaches

We will take the actions set out below to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. We will review the effectiveness of these actions and amend them as necessary after any data breach.

Sensitive information being disclosed via email (including safeguarding records)

- *If special category data (sensitive information) is accidentally made available via email to unauthorised individuals, the sender must attempt to recall the email as soon as they become aware of the error.*
- *Members of staff who receive personal data sent in error must alert the sender and the DPO as soon as they become aware of the error.*
- *If the sender is unavailable or cannot recall the email for any reason, the DPO will ask the ICT management to recall it.*
- *In any cases where the recall is unsuccessful, the DPO will contact the relevant unauthorised individuals who received the email, explain that the information was sent in error, and request that those individuals delete the information and do not share, publish, save or replicate it in any way.*
- *The DPO will ensure we receive a written response from all the individuals who received the data, confirming that they have complied with this request.*

- *The DPO will carry out an internet search to check that the information has not been made public; if it has, we will contact the publisher/website owner or administrator to request that the information is removed from their website and deleted.*

Other types of breach we want to consider include:

- *Details of pupil premium interventions for named children being published on the school website*
- *Non-anonymised pupil exam results or staff pay information being shared with governors*
- *A school laptop containing non-encrypted sensitive personal data being stolen or hacked*
- *The school's cashless payment provider being hacked and parents' financial details stolen.*

Appendix 2

Principle 1: Personal data must be processed lawfully, fairly and in a transparent manner

The School only collects, processes and shares personal data fairly and lawfully and for specified purposes. The School must have a specified purpose for processing personal data and special category of data as set out in the GDPR.

Before the processing starts for the first time we will review the purposes of the particular processing activity and select the most appropriate lawful basis for that processing. We will then regularly review those purposes whilst processing continues in order to satisfy ourselves that the processing is necessary for the purpose of the relevant lawful basis (i.e. that there is no other reasonable way to achieve that purpose).

Personal Data

The School may only process a data subject's personal data if one of the following fair processing conditions are met:

- The data subject has given their consent;
- The processing is necessary for the performance of a contract with the data subject or for taking steps at their request to enter into a contract;
- To protect the data subject's vital interests;
- To meet our legal compliance obligations (other than a contractual obligation);
- To perform a task in the public interest or in order to carry out official functions as authorised by law;
- For the purposes of the School's legitimate interests where authorised in accordance with data protection legislation. This is provided that it would not prejudice the rights and freedoms or legitimate interests of the data subject.

Special Category Data

The School may only process special category data if they are entitled to process personal data (using one of the fair processing conditions above) AND one of the following conditions are met: -

- The data subject has given their explicit consent;
- The processing is necessary for the purposes of exercising or performing any right or obligation which is conferred or imposed on the School in the field of employment law, social security law or social protection law. This may include, but is not limited to, dealing with sickness absence, dealing with disability and making adjustments for

the same, arranging private health care insurance and providing contractual sick pay;

- To protect the data subject's vital interests;
- To meet our legal compliance obligations (other than a contractual obligation);
- Where the data has been made public by the data subject;
- To perform a task in the substantial public interest or in order to carry out official functions as authorised by law;
- Where it is necessary for the purposes of preventive or occupational medicine, for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems and services;
- Where it is necessary for reasons of public interest in the area of public health;
- The processing is necessary for archiving, statistical or research purposes.

The School identifies and documents the legal grounds being relied upon for each processing activity.

Consent

Where the School relies on consent as a fair condition for processing (as set out above), it will adhere to the requirements set out in the GDPR.

Consent must be freely given, specific, informed and be an unambiguous indication of the data subject's wishes by which they signify agreement to the processing of personal data relating to them. Explicit consent requires a very clear and specific statement to be relied upon (i.e. more than just mere action is required).

A data subject will have consented to processing of their personal data if they indicate agreement clearly either by a statement or positive action to the processing. Consent requires affirmative action so silence, pre-ticked boxes or inactivity will not amount to valid consent.

Data subjects must be easily able to withdraw consent to processing at any time and withdrawal must be promptly honoured.

If explicit consent is required, the School will normally seek another legal basis to process that data. However if explicit consent is required the data subject will be provided with full information in order to provide explicit consent.

The School will keep records of consents obtained in order to demonstrate compliance with consent requirements under the GDPR.

Principle 2: Personal data must be collected only for specified, explicit and legitimate purposes

Personal data will not be processed in any manner that is incompatible with the legitimate purposes.

The School will not use personal data for new, different or incompatible purposes from that disclosed when it was first obtained unless we have informed the data subject of the new purpose (and they have consented where necessary).

Principle 3: Personal data must be adequate, relevant and limited to what is necessary in relation to the purposes for which it is processed

The School will only process personal data when our obligations and duties require us to. We will not collect excessive data and ensure any personal data collected is adequate and relevant for the intended purposes.

When personal data is no longer needed for specified purposes, the School shall delete or anonymise the data.

Principle 4: Personal data must be accurate and, where necessary, kept up to date

The School will endeavour to correct or delete any inaccurate data being processed by checking the accuracy of the personal data at the point of collection and at regular intervals afterwards. We will take all reasonable steps to destroy or amend inaccurate or out of date personal data.

Data subjects also have an obligation to ensure that their data is accurate, complete, up to date and relevant. Data subjects have the right to request rectification to incomplete or inaccurate data held by the School.

Principle 5: Personal data must not be kept in a form which permits identification of data subjects for longer than is necessary for the purposes for which the data is processed

Legitimate purposes for which the data is being processed may include satisfying legal, accounting or reporting requirements. The School will ensure that they adhere to legal timeframes for retaining data.

We will take reasonable steps to destroy or erase from our systems all personal data that we no longer require. We will also ensure that data subjects are informed of the period for which data is stored and how that period is determined in our privacy notices.

Please refer to the school's Schedule of Record Retention and Disposal Policy, which is found on [Information and Records Management Society's toolkit for schools](#).

for further details about how the School retains and removes data.

Principle 6: Personal data must be processed in a manner that ensures its security using appropriate technical and organisational measures to protect against unauthorised or unlawful processing and against accidental loss, destruction or damage

In order to assure the protection of all data being processed, the School will develop, implement and maintain reasonable safeguard and security measures. This includes using measures such as: -

- Encryption;
- Pseudonymisation (this is where the School replaces information that directly or indirectly identifies an individual with one or more artificial identifiers or pseudonyms so that the person to whom the data relates cannot be identified without the use of additional information which is meant to be kept separately and secure);
- Ensuring authorised access (i.e. that only people who have a need to know the personal data are authorised to access it);
- Adhering to confidentiality principles;
- Ensuring personal data is accurate and suitable for the process for which it is processed.

The School follows procedures and technologies to ensure security and will regularly evaluate and test the effectiveness of those safeguards to ensure security in processing personal data.

The School will only transfer personal data to third party service providers who agree to comply with the required policies and procedures and agree to put adequate measures in place.

Sharing Personal Data

The School will generally not share personal data with third parties unless certain safeguards and contractual arrangements have been put in place. These include if the third party:

- Has a need to know the information for the purposes of providing the contracted services;
- Sharing the personal data complies with the privacy notice that has been provided to the data subject and, if required, the data subject's consent has been obtained;

- The third party has agreed to comply with the required data security standards, policies and procedures and put adequate security measures in place;
- The transfer complies with any applicable cross border transfer restrictions; and
- A fully executed written contract that contains GDPR approved third party clauses has been obtained.

There may be circumstances where the School is required either by law or in the best interests of our pupils, parents or staff to pass information onto external authorities, for example, the local authority, Ofsted or the department of health. These authorities are up to date with data protection law and have their own policies relating to the protection of any data that they receive or collect.

The intention to share data relating to individuals to an organisation outside of our School shall be clearly defined within written notifications and details and basis for sharing that data given.

Transfer of Data outside the European Economic Area (EEA)

The GDPR restricts data transfers to countries outside the EEA in order to ensure that the level of data protection afforded to individuals by the GDPR is not undermined.

The School will not transfer data to another country outside of the EEA without appropriate safeguards being in place and in compliance with the GDPR. All staff must comply with the School's guidelines on transferring data outside of the EEA. For the avoidance of doubt, a transfer of data to another country can occur when you transmit, send, view or access that data in that particular country.
