Unique Story

What's happened/What's going on?

Link thoughts to feelings

What were you thinking when it happened? And so what did you feel inside when it happened?

Harm and effect

Who has been harmed/affected by what has happened? (how are you now?) How have they been affected?

Needs and Repair

What do you need to feel better?

Putting things right together (ownership of problem solving and decision making)

What do you think needs to happen to put things right? And repair the harm?

School consequences/sanctions follow this.

NB: If the quick version does not resolve the matter, the person is too angry to engage at that point or there are too many people around, then offer a quiet place, where the individual can calm down. Maybe offer them a time out sheet/thinking sheet to work through.
